## **ABOUT ME**

I am a motivated and energetic individual who enjoys all work environments. I pride myself on being a team player and offering a positive, optimistic approach to my work. I have a long list of soft skills that set me apart from others as I am proficient in adapting to all scenarios I encounter in the workplace. I would categorize myself as outgoing and a people person.

## **SKILLS AND PERSONAL QUALITIES**

- Knowledge of full-stack web development (HTML, CSS, Javascript)
- Good knowledge of the coding language Python
- Ability to write a professional article or blog post
- Proficient with all social media platforms
- Fast learner
- Open to continuous personal growth
- Accuracy and attention to detail
- Calm and collected under stressful situations
- Love helping others to the best of my abilities
- An eye for good design of any type

## **PREVIOUS EMPLOYMENT**

- I worked at Soccer World for three years (2018-2022) part-time, which gave me invaluable insights into the customer service industry.
- Worked as a journalist at Welcome.jpeg, a media publication specializing in current culture and trends.
- Volunteer Victoria contract position analyzing data related to charitable organizations nationally and volunteer engagement trends locally.

## **CURRENT PROJECTS**

- Created an NFT collection of 3000 unique artworks and am in the process of listing them for sale.

## **VOLUNTEER ACTIVITY**

I am a strong supporter of volunteering in the community. I have demonstrated this by:

- Currently lending my time to an Instagram page named Sunny.ssa where I am helping format and curate content along with writing short-form articles about fashion.
- Attended two separate Garden clean-up/restoration events hosted by the Oaklands community team.
- Volunteered on the grounds of the legislature on Canada Day, with the Canada 150 youth advisory committee of Volunteer Victoria..
- Supported the delivery of Cystic Fibrosis Canada's Great Strides Walk at Royal Roads University.

## **EDUCATIONAL TRAINING**

### **Oak Bay High School**

- Graduated (2018) with exceptional grades in my grade 12 courses (Physics, Chemistry, Pre-Calculus, Film Studies.)

### **Lighthouse Labs Bootcamp**

- currently completing my web-development diploma at Lighthouse Labs, Lighthouse Labs is a tech education company that offers 12 or 30-week boot camps for web development and data science, as well as part-time up-skilling courses, with locations across Canada.

### **Programming Expert online course certificate**

- Completed an in-depth Python programming course that tested logic and problem-solving skills.

### **Front-end developer online course**

- This course focused on the visual consumer side of coding. Asking and solving questions about how good design on websites can increase user satisfaction and retention online. This helped me understand consumer behavior.

### **Online 3D modeling course in Blender**

- Something I am very passionate about is design work, and this course gave me the ability to create a three-dimensional model of anything I want. This is a skill that reflects my knowledge of computers and emerging technologies.
